Amsterdam Manor  
BEACH RESORT ARUBA

## Operations

- **Quality Assurance Assistant**

A Quality Assistant should effectively manage, maintain, and report on sustainable outcomes. Must possess specifically knowledge of Earth Check, Benchmarking and Certification products. Develop Green Teams, gain organizational buy-in and manage sustainable operations. In addition, sustainability coordinators must analyze the environment to determine which projects will occur and whether the given environment can sustain the development. Sustainability coordinators perform workshops where they train employees in each facility or within a given project to behave in sustainable ways. As green technology continues to develop, sustainability coordinators must stay updated on the latest technology to help the company become increasingly sustainable. They must also review and produce documentation that can be presented to environmental organizations.

*Deadline to submit your resume and motivation letter is
